# Unlocking procedure for 1999-2000 current products

All 55xxx, 54xxx, 5605, 56050, 4502, 4441 & 4440 series unit

Before trying to <u>Retrieve the Existing Code</u> make sure the unit is displaying "CALL 800", if it is displaying "DISC" the unit needs to be locked-up by inserting any CD.

I) How to Retrieve the Existing Code:

1)   Press and hold PRESET #**6** first, then press and hold the **AM/FM** button, hold both button together for 10 seconds.
2)   The display will read "**SEC**" then the 6 digit SECURITY CODE will appear.
3)   Verify the 6 digit SECURITY CODE (**If the unit is a 5440 or 54400, please see <u>Fig. A</u>**).
4)   Call Technical Department at (800) 421-1996 to obtain the new UNLOCK code.

This is a number "6".

This is a lower case "B".

(Fig. A)

II) The UNLOCKING procedure:

1)   Before entering the new UNLOCK code, make sure the 6 digit SECURITY CODE is still on the display of the radio. If not press and hold PRESET #**6** first, then the **AM/FM** button together for 10 seconds to bring the SECURITY CODE back up.

2)   (**<u>Note this is a 10 seconds procedure</u>**) Enter UNLOCKED CODE by pressing TUNE UP button (∧) on the right side of the unit once, display will show 6 dashes. Press preset #1 over and over until you see the first digit of the new code, PRESET #2 for the second digit, and PRESET #3 for the third digit. Press TUNE DOWN button (∨) on the right side of the unit once to enter the last three digits of the code (DISPLAY WILL NOT CHANGE). Use PRESET #1 for fourth digit, PRESET #2 for fifth digit, and PRESET #3 for the sixth digit.

3)   After confirming the UNLOCK CODE on the display, press and hold the **AM/FM** button for 2 seconds. Display should read "**OK**" or give you 3 dashes (If the display reads "**ERR**", you MUST re-enter the UNLOCK CODE again).
